Hamilton, ON | nicholaslaranjeiro@hotmail.com | nicklaranjeiro.github.io | 905-979-9232

## PERSONAL STATEMENT

---

With over 2 years experience as a front end developer and freelance mentor for React and Angular, I push best practices into my work and teachings alike. While keeping the bar high, I know this results in high quality code that is easier to maintain. I am looking for a permanent position in a professional environment after honing my skills in internships at ComQi and PHRI, as well as a freelance code mentor where I maintain a 5 star rating with every client.

## KEY SKILLS

---

**Web Development & Design** | React, Angular, ASP.NET, HTML5, CSS3 / SCSS, JavaScript, TypeScript  
**Back End Development** | C#, PHP (Cogelgniter & Wordpress), SQL, Node.js (Express), REST APIs  
**Collaboration** | Agile, Scrums, Kanban, Git, Trello, Jira, Mentoring, Pair Programming

## EDUCATION

---

**3 Year Advanced Diploma** | Mohawk College Sep 2016 – Dec 2019

- Major: Computer Systems Technology – Software Development
- Relevant courses: Emerging Web Technologies, HTML5 & Mobile Web Development ,Web Applications ASP.NET, Data Structures & Algorithms, Database Theory

## EXPERIENCE

---

**Freelance Developer** | Codementor | Hamilton, ON Mar 2020 – Present

- Codementor is an online platform for developers to instantly connect with experts for one-on-one live help or long term mentorships to improve their coding skills and knowledge
- Collaborated with over 119 clients to resolve issues while enforcing high quality coding conventions
- Assessed and fixed client issues in React, Angular, HTML & CSS, JavaScript, PHP and SQL
- Awarded Codementor of the week 13 times for being a top performing mentor

**Front End Software Developer Co-op** | ComQi | Burlington, ON May 2019 – Aug 2019

- Built a good understanding of how to write well documented quality code through code reviews with senior developers, teaching and sharing knowledge
- Implemented front end software components for a cloud based content management solution that was built with Angular, JavaScript, HTML & CSS and Git as source control
- Improved the efficiency and design of how customers uploaded media content to the application which was well received by the design team along with the customers
- Worked with the front end team to implement product designs, requirements, and produce high quality software

**Full Stack Developer Co-op** | PHRI | Hamilton, ON Sep 2018 – Jan 2019

- Developed full-stack ASP.NET web applications for large budget drug research management
- Using Agile methodology, worked closely with business analysts and other developers in scrums
- Programmed the web applications using C#, JavaScript, HTML & CSS, SQL
- Applied my knowledge of Object Oriented and .NET framework concepts to solve bugs and add needed features
